

SF Force 7-2

dual purpose lucerne

FEATURES

- Very high yielding
- Excellent shoulder activity
- Improved pest & disease resistance
- Improved persistence

BENEFITS

- Suited to in situ grazing
- More cuts or grazing per year
- Maintains high yields under humid conditions
- Longer stand life for a highly winter active variety

General fit

SF Force 7-2 is a new winter activity 7 lucerne from the same breeder as SF Force 7.

It is a dual-purpose variety suited to both intensive and extensive livestock production or use as a hay variety. It has improved yield over SF Force 7 and most other activity 7 varieties, and has an excellent pest and disease resistance package.

SF Force 7-2 is an ideal replacement for SF Force 7 and other activity 7 lucerne varieties where more focus is on grazing.

Sowing rate

>900mm irrigation	15-25kg/ha
750–900mm rainfall	10-15kg/ha
600–750mm rainfall	6-10kg/ha
450–600mm rainfall	2-6kg/ha
<450mm rainfall	2–4kg/ha

winter active

**Australian release
> 2019**

**Stock suitability
> Dairy, sheep & beef
> Hay**
