Cereal Availability for Autumn 2021

	Variety	Description	Treatment
Wheat Winter (Grazing)	Illabo	APH(SE Zone), AH(Southern Zone) grazing, high yielding Wedgetail alternative	Evergol Energy & Crusier FS350
	Bennett	Awnless ASW	Evergol Energy & Crusier FS350
	NEW! Anapurna	High yielding awned winter wheat	Evergol Energy & Crusier FS349
	Kittyhawk	APH(NSW), AH(VIC) grazing, good test weight	Evergol Energy & Crusier FS350
	Naparoo	Awnless feed	Evergol Energy & Crusier FS350
	Accroc	High yielding red wheat	Evergol Energy & Crusier FS350
Wheat Spring Long-Mid	Coolah	Gregory type with good straw strength	Evergol Energy & Crusier FS350
	NEW! Rockstar	High yielding, good grain size, moderate plant height. AH	Evergol Energy & Cruiser FS350
	Catapult	High yielding, adaptable variety closely related to Scepter	Evergol Energy & Crusier FS350
	Nighthawk	Slow maturing spring wheat with AH (SE Zone)	Evergol Energy & Cruiser FS350
	NEW! Stealth	Exceptional grain quality, Lancer replacement with improved yield	Evergol Energy & Crusier FS350
Wheat Spring Mid-Short	NEW! Ballista	Quick variety, quicker than Mace, late planting option	Evergol Energy & Cruiser FS350
	NEW! Hammer CL	Clearfield variety suited to L/M rainfall zones, Mace parentage	Evergol Energy & Crusier FS350
	Mustang	Quick Maturity, APH with short canopy	Evergol Energy & Cruiser FS350
	Hellfire	Spitfire replacement with improved yield. Exceptional grain Quality APH (NSW)	Evergol Energy & Crusier FS350
	Scepter	AH with good yield, Mace type	Evergol Energy & Cruiser FS350
	Impala	Mid Maturity high yielding soft wheat	Evergol Energy & Cruiser FS350
	Oryx	High yielding Soft Wheat	Evergol Energy & Crusier FS350
	Parakeet	Premium Noodle Wheat	Evergol Energy & Cruiser FS350
Barley	Planet	High yielding with vigorous growth, malt	Untreated, Treatment available
	Spartacus CL	Quick maturing Hindmarsh type malt barley with CL	Evergol Energy & Cruiser FS350
	NEW! Maximus CL	Superior yielding Hindmarsh type, improved disease over Spartacus, IMI tolerance	Evergol Energy & Cruiser FS350
	Mundah	Quickest to first graze, suits sandy soils	Untreated
	Cape	Tried & tested grazing, with strong winter production	Untreated
Triticale	Cartwheel	Grazing, dual purpose winter type Tobruk replacement	Evergol Energy & Crusier FS350
	NEW! Kokoda	Grazing, dual purpose winter type, Endeavour replacement	Evergol Energy & Crusier FS350
	Astute	High yielding spring type suited to grain & hay	Evergol Energy
	Wonambi	Multi purpose spring type long season	Untreated
Oats Grazing & Dual Purpose	Comet	Mid-Late season grazing, good est. in warm soil	Untreated
	Coolibah	Dual Purpose early maturing grazing/ hay/ grain	Untreated
	Saia	Grazing/ Hay small black seeded oat	Untreated
	Taipan	Long season grazing, good establishment in warm soil	Untreated
	Forester	Dual purpose mid maturity grazing & grain	Untreated
Hay Oats	Wintaroo	Mid Season grazing/ hay oat	Untreated
	Brusher	Early-mid maturity, high quality	untreated
	NEW! Kingbale	Mid season single gene imi tolerant	untreated
	Bannister	Early-Mid maturity, medium-tall, suited to milling grain or hay	Untreated
	NEW! Koorabup	New early-Mid maturity, high quality hay	Untreated
Grain Oats	Kowari	Early season grain oat, short straw, Mitika replacement	Untreated

Available in 25kg or 1,000kg bags

Cereal Availability for Autumn 2021

Catapult Wheat

- High yielding main-season wheat variety with flexible sowing window
- Very suitable to dry sowing
- When sown in April has consistently been among highest yielding in trials
- Adaptable variety very closely related to Scepter
- Very good physical grain characteristics with an AH quality classification
- Good choice for wheat on wheat situations

DS Bennett Wheat

- High yielding, awnless winter wheat
- Ideal for graze and grain
- Quicker to first graze than oats
- Flexible sowing window but recommend grazing to manage biomass if crop is sown early
- Excellent option for “clean-up phase” prior to sowing a perennial pasture, with wheat providing alternative herbicide control options as well as flexibility of continuing to graze or making hay

RGT Anapurna Wheat *New*

- Dual purpose winter wheat suited to graze & grain
- Awned, red grained, feed quality
- Very high yielding with similar growth habit to Accroc
- Good disease resistance package
- Excellent lodging resistance in high yielding environments

Rockstar Wheat *New*

- Very high yielding
- Good grain size and AH classification
- Excellent alternative to Trojan
- Good stem rust (MR), yellow leaf spot (MRMS) and stripe rust (RMR/MRMS pathotype dependent) resistance
- Moderate plant height

Wintaroo Oats

- Guaranteed true to type
- Tall, mid maturing hay oat with excellent early vigour
- Suitable for multiple grazings
- Very good value for money

RGT Planet Barley

- Very high yielding across a range of rainfall regions
- Mid season, malt accredited variety
- Good early vigour and competitive growth
- Good straw strength for reduced lodging
- Good irrigation option with excellent top end yield

Wonambi Triticale

- Late maturing all-purpose variety
- Suitable for graze and grain or hay
- Very high yielding with low screenings and high test weight
- Excellent disease resistance profile
- Adaptable to a wide range of soils and rainfall region
