

# SF Medallion®

**SF Medallion®** is a summer dormant mediterranean tall fescue. It has been selected to produce similar yields to existing types, but with lower NDF and higher ME for increased animal intake and liveweight gain.

### The medal winning winter active fescue

SF Medallion® It has shown excellent palatability and persistence in Australian trials. It has no endophyte and poses no animal health risks to grazing livestock, including horses and alpacas.

SF Medallion® is two weeks later flowering than current mediterranean varieties.

Suited to all livestock types, silage and hay

### FEATURES

High winter production	Excellent feed quality
High summer dormancy	Nil endophyte status

### BENEFITS

- Produces feed when it is most needed
- This provides higher liveweight gain and milk per ha
- Provides the plant with outstanding persistence, especially in areas of hot dry summers
- Poses no animal health risks to all livestock classes

### SOWING RATES

Sole grass with clovers	8-12kg/ha
Mixes with lucerne	4-6kg/ha

Mid season maturity

Australian Release >2011
